

Lights Out DC

2011 Report

A Program of

City Wildlife, Inc
PO Box 40456
Washington, DC 20016
www.citywildlife.org

INTRODUCTION

Lights Out DC, an advocacy program modeled after *Lights Out Toronto* (Canada) and others in the US, was launched by City Wildlife, Washington, DC, in April 2010. “*Lights Out*” programs have been established in a growing number of major North American cities, beginning in the early 1990’s. They aim to quantify light-caused bird/building collisions and to encourage building managers to take steps that mitigate the damage to birds.

Twice yearly, during spring and fall bird migrations, millions of birds fly ancient routes to distant feeding and nesting grounds, often traveling thousands of miles. Most small birds migrate at night to avoid rough air patterns and to navigate by the stars. In cities, where lights are often on all night in tall buildings and pointed skyward, migrating birds become disoriented and fly into glass. Many are killed instantly. Others are injured or are so weak from trying to fly through the glass that they become exhausted and become victims of urban predators such as rats, crows, and gulls.

Results from counts like *Lights Out DC* provide invaluable information to concerned citizens and scientists about the problem of nocturnal bird/building collisions. The information in this report reflects the species and numbers of migratory birds killed and injured while passing through downtown DC to points north (in the spring) and south (in the fall). Comparisons of data in the coming years can be used to monitor changes in the distribution of these species and to measure the effects of (human) behavior change when buildings in the District adopt recommendations set forth by *Lights Out DC*.

Lights Out programs have been shown to reduce migrating bird mortality by as much as 80 percent in some cities. What’s more, they reduce light pollution and save participants money spent on energy costs. We see this as a win-win situation for people and migrating birds.

BIRDS FOUND

The following list includes all 47 species of birds found by *Lights Out DC* volunteers in 2011. A total of 212 individual birds were picked up. For more detailed information, please see the attached data table “Lights Out DC Bird Inventory, 2011.”

Birds Collected in the Spring & Fall of 2011

Black-and-white warbler	<u><i>Mniotilta varia</i></u>	5
Black-throated blue warbler	<u><i>Dendroica caerulescens</i></u>	4
Black-throated green warbler	<u><i>Dendroica virens</i></u>	1
Blackpoll warbler	<u><i>Dendroica striata</i></u>	1
Brown creeper	<u><i>Certhia americana</i></u>	3
Cape May warbler	<u><i>Setophaga tigrina</i></u>	1
Cardinal	<u><i>Cardinalis cardinalis</i></u>	1
Chimney swift	<u><i>Chaetura pelagica</i></u>	2

Dark-eyed junco	<u><i>Junco hyemalis</i></u>	3
Eastern towhee	<u><i>Pipilo erythrophthalmus</i></u>	1
Field sparrow	<u><i>Spizella pusilla</i></u>	1
Flicker	<i>Colaptes sp.</i>	1
Flycatcher	<i>Empidonax sp.</i>	1
Golden-crowned kinglet	<u><i>Regulus satrapa</i></u>	3
Gray catbird	<u><i>Dumetella carolinensis</i></u>	13
Gray-cheeked thrush	<u><i>Catharus minimus</i></u>	1
Hermit thrush	<u><i>Catharus guttatus</i></u>	7
House finch	<u><i>Carpodacus mexicanus</i></u>	1
House sparrow	<u><i>Passer domesticus</i></u>	3
Hummingbird	<u><i>Archilochus colubris</i></u>	5
Indigo bunting	<u><i>Passerina cyanea</i></u>	1
Lincoln's sparrow	<u><i>Melospiza lincolnii</i></u>	6
Mourning dove	<u><i>Zenaida macroura</i></u>	1
Mourning warbler	<u><i>Oporornis philadelphia</i></u>	1
Parula warbler	<u><i>Setophaga americana</i></u>	3
Northern waterthrush	<u><i>Seiurus noveboracensis</i></u>	1
Ovenbird	<u><i>Seiurus aurocapillus</i></u>	20
Pine warbler	<u><i>Dendroica pinus</i></u>	2
Red-eyed Vireo	<u><i>Vireo olivaceus</i></u>	3
American Robin	<u><i>Turdus migratorius</i></u>	2
Song sparrow	<u><i>Melospiza melodia</i></u>	4
Sparrow	<i>Melospiza sp.</i>	4
Starling	<u><i>Sturnus vulgaris</i></u>	2
Swainson's thrush	<u><i>Catharus ustulatus</i></u>	4
Swamp sparrow	<u><i>Melospiza georgiana</i></u>	6
Tennessee warbler	<u><i>Vermivora peregrina</i></u>	3
Veery	<u><i>Catharus fuscescens</i></u>	1
Warbler (unknown sp.)	<i>Unknown Sp.</i>	1
Whip-poor-will	<u><i>Caprimulgus vociferus</i></u>	1
White-throated sparrow	<u><i>Zonotrichia albicollis</i></u>	27
Wood thrush	<u><i>Hylocichla mustelina</i></u>	8
Woodcock	<u><i>Scolopax minor</i></u>	6
Yellow-bellied sapsucker	<u><i>Sphyrapicus varius</i></u>	5
Yellow-billed cuckoo	<u><i>Coccyzus americanus</i></u>	1
Yellow-breasted chat	<u><i>Icteria virens</i></u>	1
Yellow-breasted flycatcher	<u><i>Tolmomyias viridiceps</i></u>	1
Yellow-rumped warbler	<u><i>Setophaga coronata</i></u>	2
Yellowthroat	<u><i>Geothlypis sp.</i></u>	37

Thurgood Marshall Building, District of Columbia

LOCATIONS WHERE BIRDS WERE FOUND

Dead, injured or exhausted birds were found at the following 42 locations. They are listed in descending order according to the number of birds found at each. For more detailed information, please see the attached data table.

1050 K Street, NW	1
1099 New York Ave., NW	6
1100 First Street, NE (or NW)	1
111 Massachusetts Avenue, NW	3
1200 1st Street, NE	4
1275 1st Street, NE	1
145 N Street, NE	1
1500 bl. 32nd Street, NW	1
1508 19th Street, NW	1
20 Massachusetts Ave. NW	3
2031 Huidekoper Place, NW	1
2800 P Street, NW	1
2831 Myrtle Avenue, NE	1

2nd & G, NE	1
300 New Jersey Ave., NW	35
4001 Calvert Street, NW	1
425 I Street, NW	3
4250 Connecticut Ave., NW	1
430 E Street, NW	29
500 New Jersey Ave., NW	2
555 Massachusetts, NW	1
555 New Jersey Ave., NW	1
600 New Jersey Ave, NW GWU Law, McDonough Hall, North side)	1
71 Oglethorpe Street, NW	1
800 K St., NW	16
801 K Street NW	2
810 7th Street, NW	1
899 North Capitol Street, NE (N. side)	1
90 F Street, NW	1
900 Massachusetts Ave., NW	3
901 K Street, NW	6
920 Massachusetts Ave., NW	1
Cathedral and 34th St. NW	2
Connecticut Avenue, NW between 21st and R	1
Convention Center	17
Georgetown Law School	8
Hart Senate Office Building, North side	4
New Jersey & D, NW	1
SEC Building, E. side	3
TD Bank, Conn. and S Sts. NW	1
Thurgood Marshall Bldg.	23
Wisc. And Mass. Ave., NW	19
Unknown location	1

METHOD

Each morning throughout the months of April, May, September, and October 2011, a group of *Lights Out DC* volunteers met at Union Station at 5:30 a.m. Generally they walked an approximately two-hour-long route to the Convention Center and back.

Routes were often extended by car for efficiency, and some of the volunteers covered extra routes on separate days or before the 5:30 a.m. meet-up time. Routes were intentionally arranged so as to include buildings with architectural features thought to be particularly problematic: tall glass atria, large expanses of reflective glass, overhead glass walkways, etc.

One monitored the court building where she works at 430 E Street, NW. Other individual birds were reported and delivered to the *Lights Out DC* group by people who were not regular volunteers. These birds are included in the inventory.

Dead birds were collected in plastic bags that were sealed shut. The date, location found, and species were written on the bag. The specimens were frozen. Injured birds were transported to Second Chance Wildlife Center in Gaithersburg, MD, for rehabilitation with the goal of release to the wild. A few birds recovered sufficiently that they could be released later that day by *Lights Out DC* volunteers.

A running inventory of birds was created, listing the species, location found, condition (dead, stunned, injured, or exhausted), disposition (freezer, released, died, or sent to rehab), weather conditions, and volunteer hours expended. At the end of the year, most bird carcasses were delivered to the Smithsonian Migratory Bird Center for research or display.

The Maryland Ornithological Society was of great assistance in helping to identify the similar-looking bird species.

Recommendations for collecting dead birds and handling adult injured birds were obtained from Toronto's FLAP (Fatal Light Awareness Program), *Lights Out Baltimore!*, and the New York City Audubon Society. Our work was permitted by the US Fish and Wildlife Service under a special purpose-salvage permit, number MB00680A-0.

CONCLUSIONS

1. The second year of *Lights Out DC* data continues to demonstrate that fatal and injurious bird/building collisions occur during the night in downtown Washington, DC, during times of bird migrations. Although height restriction of buildings in the District of Columbia may mitigate the number of nocturnal bird/building collisions in comparison with other cities, numerous collisions do occur.
2. A success from the 2010 collection effort was that the Architect of the Capitol agreed to turn out the atrium lights on the trees in the Thurgood Marshall building. Once the atrium lights were turned out, bird deaths at this location declined by 2/3.
3. In 2011, we adjusted the route, eliminating some buildings and adding others that were found to have bird strikes. With an increase in the number of days covered (from an average of 2-3/week to 6-7/week in 2011) and in the effectiveness of our methods (we were able to extend our surveillance through the cooperation of a number of maintenance people who believed in our mission), we found a greater number of birds and a greater variety of species in 2011 over 2010.
4. Over 40 species of birds were collected. The majority of these species are migratory birds, and the majority of them are neo-tropical migrants. Populations of many of these birds continue to decline each year for a number of reasons, including bird/building collisions in cities along their migratory routes. As scientists become increasingly aware of the risks collisions with man-made structures pose to birds, there have been calls to focus on the impact to avian populations on a species by species basis. Conservation efforts in general are trending this way. Eight types of birds that our organization found in 2011 are listed in the District of Columbia's [Wildlife Action Plan's Species of Greatest Conservation Need](#). For example, last year we found twenty ovenbirds, a species that is "imperiled" in DC, as designated by this plan. The field sparrow also has an "imperiled" status in DC. Other types of birds that we have collected are "vulnerable," including the brown thrasher and the wood thrush, the official bird of DC.

5. Only a small portion of the District of Columbia's downtown area was covered by *Lights Out DC* volunteers. Moreover, volunteers did not monitor every day of the migration period. The resulting data is, then, but a sampling. Nonetheless, it indicates that bird/building collisions are a significant problem in the city and pose a considerable threat to the continued survival of some species of birds whose numbers are in serious decline.

Wood Thrush (the official bird of the District of Columbia)

ACKNOWLEDGMENTS

The *Lights Out DC* program would not exist without the help of our volunteers; Jim Monsma, Lisbeth Fuisz, Denise Taylor, Bob Hoffman, Teresa Watson, Bill Yeaman, Anne Lewis, Elizabeth Shope, Lee Lockwood, Ginny May, Dan Babbitt, Letty Limbach, Lisa Olson, Jim Tate, Dan Rauch, Jason Berry, and Walt and Didi Cutler. Their commitment to the program and to wildlife of Washington, DC, is deeply appreciated!

City Wildlife also wishes to thank the Smithsonian Migratory Bird Center at the National Zoo, the American Bird Conservancy, *Lights Out, Baltimore!*, the Anacostia Watershed Society, the Humane Society of the United States, Audubon DC/MD, the National Aquarium in Baltimore, The Architect of the Capitol, DC Department of the Environment, DC Environmental Network, MD Ornithological Society, DC Chapter of the American Institute of Architects, and Councilmember Mary Cheh, all of whom have supported and help guide our efforts. Finally, City Wildlife is indebted to Second Chance Wildlife Center of Gaithersburg, MD, for the rehabilitation and release of the injured migratory birds we found on our walks.

Lights Out DC Bird Inventory ,2011					
Tag No.	Date	Species	Condition	Location	Disposition
Spring, 2011					
1	1/14/2011	Cardinal (m)	Dead	71 Oglethorpe Street, NW	Freezer
2	2/10/2011	Woodcock	Injured, bloody beak	810 7th Street, SE or NW?	SCWC; died 2/26
3	2/19/2011	Dark eyed junco	Injured/ neurologic	2831 Myrtle Avenue, NE	SCWC; died
4	3/2/2011	Woodcock	Injured	20 Massachusetts Ave. NW	SCWC; died 3/2
5	3/14/2011	Woodcock	Dead	1099 New York Avenue, NW	Freezer
6	3/27/2011	House finch (m)	Dead	2031 Huidekoper Place, NW	Freezer
7	3/29/2011	Woodcock	Stunned	TD Bank, Conn. and S Sts. NW	Freezer; died 3/30
8	4/4/2011	White-throated sparrow	Exhausted, disoriented	Thurgood Marshall Bldg.	Released, Magruder Park, Hyattsville
9	4/6/2011	Yellow-bellied sapsucker	Dead	1099 New York Avenue, NW	Freezer
10	4/7/2011	Song sparrow	Dead	430 E Street, NW	Freezer
11	4/12/2011	Robin	Dead	430 E Street, NW	Freezer
12	4/12/2011	Whippoorwill (m)	Dead	Hart Senate Office Building, North side	Freezer
13	4/14/2011	White-throated sparrow	Dead	901 New York Ave., NW	Freezer
14	4/26/2011	Lincoln's sparrow (or juv. Swamp sparrow)	Stunned	300 New Jersey Avenue, NW	Released, Dumbarton Oaks Park, 4/26
15	4/26/2011	Ovenbird	Stunned	800 K Street, NW	Released, Dumbarton Oaks Park, 4/27
16	4/26/2011	Yellowthroat (m)	Injured - neurologic	4001 Calvert Street, NW	SCWC; died 4/27
17	4/27/2011	Catbird	Dead	GU Sport and Fitness Center	Removed by crow before we could get access to the areaway.
18	4/27/2011	Sparrow (species unknown)	Dead	Convention Center overpass (W. side)	Crushed -- not picked up.
19	4/21/2011	Woodcock	Injured -eye and breast wounds	1200 1st Street, NE	SCWC; euth. 4/28
20	4/29/2011	Catbird	Dead	430 E Street, NW	Freezer
21	4/30/2011	Field sparrow	Dead	800 K Street, NW	Freezer
22	5/2/2011	Gray catbird	Dead	Convention Center overpass (W. side)	Unrecoverable, left
23	5/6/2011	Ovenbird	Dead	Convention Center overpass	Freezer

Tag No.	Date	Species	Condition	Location	Disposition
24	5/6/2011	Yellowthroat (m)	Stunned, exhausted	SEC Building, E. side	Released, Dumbarton Oaks Park, 5/6
25	5/7/2011	Yellowthroat (m)	Dead	500 New Jersey Avenue, NW	Freezer
26	5/10/2011	Ovenbird	Dead	800 K Street, NW	Freezer
27	5/10/2011	Wood Thrush	Injured, bloody beak	899 North Capitol Street, NE (N. side)	Died minutes after being found.
28	5/11/2011	Ovenbird (1 of 2)	Dead	430 E Street, NW	Freezer
29	5/11/2011	Ovenbird (2 of 2)	Dead	430 E Street, NW	Freezer
30	5/14/2011	Veery	Died	2nd & G, NE	Freezer
